Dear County Commission Members,

I urge you to adopt the revisions and clarifications to the Rules and Regulations of the High Density Housing Ordinance.

Verifying that all housing units must be sold to Grand County residents is the only way to maintain the original purpose of the High Density Housing Ordinance.

If these units are so to out of county/out of state owners, the developers will make large profits that will not benefit Grand County residents. Thes intended purpose of the High Density Housing Ordinance to keep new housing affordable to local residents/families/workers.

Out of area developers will not have this intention. Please hold a firm line when these developers cry foul. It is not their profits that must be met. It is the affordable housing needs of the Grand County residents that must be assured.

I urge you to vote to adopt these revisions and clarifications to the Rules and Regulations of the High Density Housing Ordinance.

Thank you for your consideration,
Lisa Paterson
Moab, Utah
